

## **AUSTRALASIAN CRC FOR INTERACTION DESIGN PHD SCHOLARSHIP IN ONLINE COLLABORATION**

**\$20,00 per annum, tax free**

The Australasian CRC for Interaction Design (ACID) is offering a new doctoral scholarship for a suitably qualified candidate to undertake research into computational processes for generative music and graphics. This scholarship is funded by ACID for a period of three years. The position will be based in the Creative Industries Faculty at the Queensland University of Technology (QUT) in Brisbane, Australia.

ACID is a leader in the research and design of innovative technologies and digital media that support new forms of interaction and collaboration.

The successful applicant will work with a team of researchers working on ACID's Adaptive Media project. This project investigates new methods for providing computational support for creative activities through generative algorithmic processes that extend or automate creation of digital media content.

The successful applicant will suggest a doctoral study that strongly aligns with this project and will work with Associate Professor Andrew Brown and Research Fellow Andrew Sorensen. Applicants must also successfully apply for admission to the doctoral project at QUT.

The doctoral scholarship is valued at \$20K per annum (tax exempt) and may be renewed, subject to satisfactory progress.

Applications are invited from both Australian citizens and International Students applying to study at QUT. Successful applicants are expected to enrol in 2008.

Further information is available from Associate Professor Andrew Brown, PO Box 2008, Kelvin Grove, Qld, 4059 (Phone: 07 3337 7821; Fax: 07 3337 7834; Email: [andrew@acid.net.au](mailto:andrew@acid.net.au)). Applications should be sent direct to Associate Professor Andrew Brown and should include a curriculum vitae, a copy of an academic transcript, and the names and contact details of at least two referees.

**Closing Date: Friday, 29<sup>th</sup> August 2008**
